Erdmute Krieger

After achieving my school leaving examination A (ancient Greek / Latin) at the Einsiedeln seminary I decided to go abroad. For one year I lived close to London and attended the East Surrey College in Redhill. Back in Switzerland I took on my first job at Lenz & Staehelin law firm in Zurich. Thereafter, I joined Credit Suisse, where I worked for around 10 years, first in the legal department, then in the Public and Investor Relations field of the former CS Holding from 1992 onward. During this period I gathered a great degree of experience in marketing, sales and consultancy, both nationally and internationally, most recently as Head of Marketing Lake Zurich Region for Credit Suisse Private Banking. After that I worked for Peter Küpfer, corporate consultant and board of directors' member of various well-known Swiss companies, in Zollikon until 2001.

Following a sabbatical I trained to become a real estate agent with the Swiss Real Estate Association SVIT. I ventured into self-employment in 2003, and have been entrepreneur ever since. My company has operated under the name of Krieger Immobilien AG with its domicile in Weggis LU since 2014, where I also established my private home in 2017.

The topics of interior architecture and interior design have fascinated me for as long as I can think and are a creative part of my life. I delight in furnishing houses, apartments and individual rooms or redesigning them. Personally, I love rooms that radiate a sense of peace, that make you feel at home and suppress the rest of the world in an endearing way.

During 2016/17 I realised a long-time desire by studying Interior Design at the ibW Höhere Fachschule Südostschweiz in Chur.
